

Gaylor Swift Timeline

A very in-depth analysis of Taylor Swift's speculated previous relationships and beards.

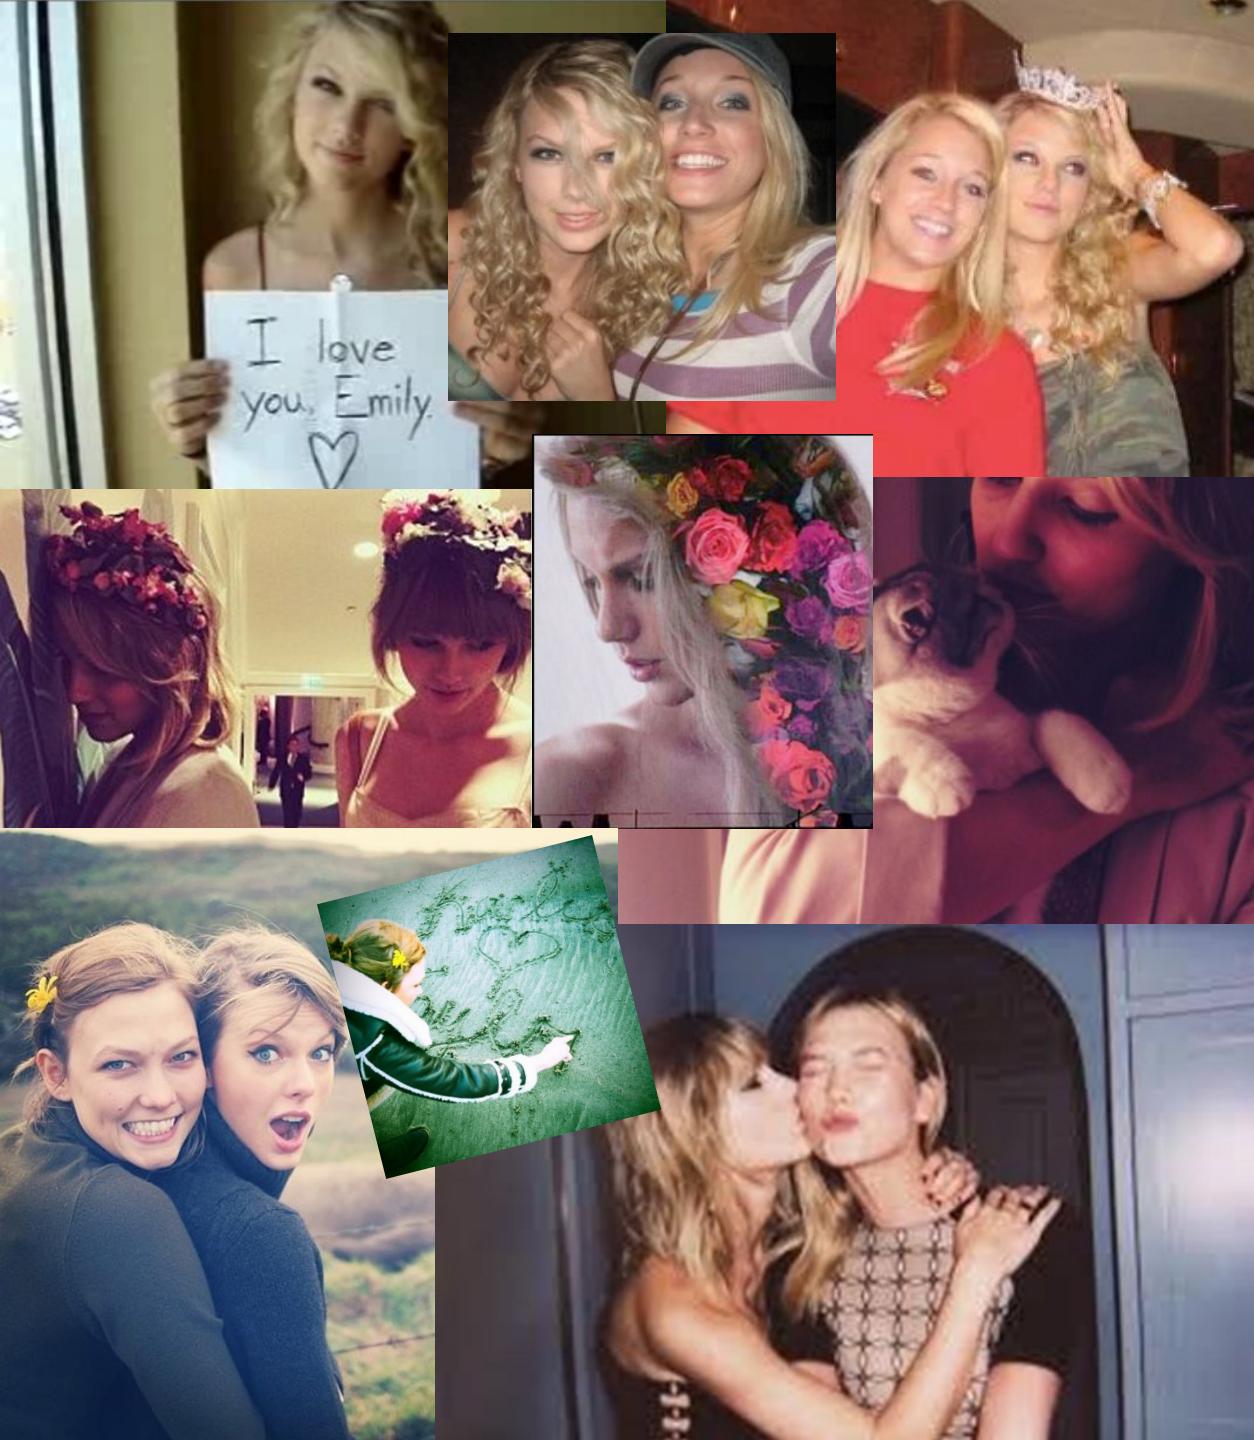

As well as her current relationship with Karlie Kloss. Jam PACKED with lots of information so if you don't want to read a lot this isn't for you boo.

Disclaimer: All **thoughts/speculation** are *my own opinion*.

This content is pulled from other amazing Gaylor/Kaylor blogs, websites, etc. and I wanted a place to showcase it all easily for my friends.

Gaylor Swift: Taylor & Emily

Emily Poe (now Stumler) was primarily **Taylor's fiddle player** during the Taylor Swift and Pre-Fearless era. She was working with Taylor from **July 2006 until January 2008**.

Prior to the release of Taylor's debut album, Emily was already hired as part of the band. **Majority of their time together was spent on the road as Taylor became the opening acts of multiple country artists.** Thus, this timeline will be heavy with journal mentions, pictures, and videos from their stops on tour, life on the bus, etc. which are labeled accordingly. [Click here](#) to see the **masterpost of their relationship**.

It is *widely speculated* that in 2008 **Emily was fired** as Taylors fiddle player due to their **relationship becoming very serious**, and as a rising country artist (as well as having *very strict rules* with her team) **coming out could largely threaten Taylors career at the time**.

Taylor's Myspace Video for Emily

Features Taylor and many different people holding up a handwritten sign that read “I love you, Emily” a letter to her from Taylor, apart from a montage of their moments together set to ‘Stolen’ by Dashboard Confessional as the background song (‘you have stolen my heart’ is a repeated lyric)

Also featured in the video is a letter Taylor wrote to Emily. (pictured above)

The letter, reads: “*Emily – I feel as if our relationship has been taken to the next level over the past few months and with much contemplation I decided I would bestow upon you one of my most prized possession: my flamingo bandana. This is a 3rd generation family heirloom and i suggest you frame it. I think it will look perfect in your apartment with the cat pillows. Enjoy*”

Songs Speculated to be About Emily

- Sparks Fly
- Fearless
- Love Story
- Breathe
- Haunted
- Last Kiss
- White Horse
- The Way I Loved You

The most telling in my opinion are All Too Well and Breathe. All Too Well mentions a “scarf” which mimics the bandana that was given to Emily as a gift. The muse is usually considered to be Jake Gyllenhaal - but Maggie Gyllenhaal has no idea what the scarf reference is about.

Gaylor Swift: Dianna Agron

September 5th, 2011 Taylor and Dianna officially met at the Fairfax flea market through a mutual friend, Ashley Avignone. At the time Dianna was a cast member in Glee, not new to being in the spotlight much like T. (pictured left)

January – April 2012 the girls continued to get closer, with Dianna tweeting and gushing often about Taylor, and them both being seen out in public together.

April 25th, 2012: Dianna posted this tweet with a link to a photo of her kissing Taylors cat, Meredith.

Dianna initially tweeted **#DATEME**, but she ended up deleting it, and changing it to what it is in the tweet below. Also pay attention to when she tweeted it, 2 am...

April 24, 2012: Girls Night with Dianna, Ashley, and Claire

The evening prior to the 25th, Taylor was spotted getting lingerie with *only 5 days* before Dianna's birthday! And **guess who** she was seeing the next night?

Gaylor Swift: Taylor & Dianna

By April 2012 it was no secret that these two were *constantly* together in the public eye. Think of all the memories they built over the months, especially with spending time on the road and at each others houses for sleepovers!

December 6th, 2012: Dianna joined Harry and Taylor for dinner in NYC. Another beard meeting?

Everything seemed to be going well for the girls. Taylor had a public "relationship" in order to save her image and avoid speculation getting out of hand, or so she thought.... An article on April 16th, 2013 almost outed them. The article was completely fake, but of course it went viral.

It's true! Country-pop singer Taylor Swift has confirmed being in a relationship with Glee star Dianna Agron.

Lesbi-honest! Right after the rumors were confirmed, the two were spotted out on a dinner date! Taylor reps say "This is the happiest she's ever been." Old rumors were that Taylor, Dianna, and NFL football player Tim Tebow were in a love triangle and Tim's reps denied the rumors. Our sources don't know how serious the relationship is at this point, but we support them and wish the girls the best of luck!

Rumors continued to spread in 2013.....

April 23rd, 2013: Rumors continue to spread as you can see. However the girls had gone radio silent. It's speculated they had broken up prior to this date.

April 29th, 2013: Although Taylor had the entire week off from the Red Tour, planned on purpose of course, the girls do not see each other. Dianna merely tweets [this video](#). No interactions on social media between Tay and Di at that time either.

Speculation & Theories: Relationship and Songs

Due to the nature of alleged songs and sources concerning their relationship, some fans consider the on-again/off-again timeline to have been relatively complicated. It is speculated that Dianna may have had relationships with other people during 2011-2013 that may or may not have impacted her relationship status with Taylor at any given point

Taylor & Emily:

January 2008

2

Taylor & Dianna: March
2012 to April 2013

Taylors Beards for PR:

Here is a breakdown of Taylor's private relationships versus public relationships from 2006-2013. Everyone always speculated **who** such passion-filled love songs were about, and as time went by Taylor had to have someone to point to for her own safety, of course not wanting to risk outing herself.

1

Joe Jonas: July 2008 to October 2008

2

Taylor Lautner: October 2009 to December 2009

3

John Mayer: December 2009 to February 2010

4

Jake Gyllenhaal: October 2010 to January 2011

5

Connor Kennedy: September 2012 to October 2012

6

Harry Styles: October 2012 to January 2013

Taylor remained publicly single from January 2013 onwards. Instead, she made many comments in interviews about how she was neither wanted nor needed a boyfriend and was **far happier** surrounding herself **with women!**

Gaylor Swift: Along Came Karlie

Karlie Kloss is a **model** has walked in shows in Europe and America, as well as appearing in any number of advertisement campaigns for such huge names as Alexander McQueen, Louis Vuitton, and Versace. She has appeared in magazines in at least a dozen countries, and had Vogue covers in Italy, Turkey, China, UK, Korea, and US Teen Vogue. From 2013 to 2015, she was also a **Victoria's Secret Angel**.

In January 2012, Taylor said in a Vogue interview, "I love Karlie Kloss. I want to bake cookies with her!" to which Karlie replied, in a tweet, "Your kitchen or mine?". However, they would not meet until November 2013, when Taylor performed at the Victoria's Secret Fashion Show. The full show can be viewed on YouTube on multiple channels, for example [here](#). Additionally, [here is a clip](#) of Karlie talking about meeting Taylor that night.

"You two are dancing in a snow globe round & round"

"You understand now why they lost their minds & fought the wars"

Taylor used a line from
"You Are In Love" and
tagged Karlie too!

On the December 10th, 2013 Karlie confirmed that they had already been spending time together and had strong ties within about four weeks. This was also the time when Taylor gave up on moving to London - where Dianna was spending a lot of her time - and chose to move to New York instead. Karlie Kloss took credit for the decision.

The first week or so of March 2014 - **Karlie and Taylor took a roadtrip to Big Sur** (full name Pfeiffer Big Sur State Park), a pretty, rugged area of California coastline. Taylor posted a number of Instagram pictures (now deleted to the 2016 purge of her social media but preserved elsewhere on the internet).

December 4th, 2014: Kissgate

Prior to December 2014, Taylor and Karlie were glass closeting and going on dates happily, all while being able to make the media and general public believe they were just best friends. Well, that was before what's known as 'Kissgate' happened on December 4th, 2014. The girls were spotted ([and recorded](#)) drunkenly dancing and all over each other while at The 1975 concert.

December 4th, 2014: Kissgate

A quick overview of the night: on 4th December 2014, Taylor and Karlie attended The 1975's concert at Terminal 5 in New York (accompanied by Lily Aldridge, Martha Hunt, the Haim sisters and, for a short while, Josh Kushner.) the night became notorious, when video was posted online purporting to show (an obviously inebriated) Taylor kissing Karlie.

[Here is a YouTube video](#) of all the clips together from that night.

Over the course of the same evening a total of [146 posts were liked](#) by Taylor's tumblr account. Notably, 26 of these concerned [her relationship with Karlie](#), of which 13 were photos and/or gifs of their appearance together at VSFS on 2nd December. (right)

Gaylor Swift: Why Kissgate Changed Everything

Their intimacy was caught on camera and exposed on twitter, resulting in a massive flurry of lesbian romance rumors, including a gossip magazine cover and discussion of the “kiss” on talk shows and entertainment news segments.

Taylor’s team made a statement regarding the rumors, calling them hilarious and ultimately just wrong. This is very interesting to us as a fandom because *taylor and her team never, never address dating rumors when they involve men.*

Taylor subsequently tweeted her infamous “[as my 25th birthday present from the media, i'd like for you to stop accusing all my friends of dating me #thirsty](#)” tweet. Months later, videos from that 1975 show had started disappearing from youtube. I wonder why?

Since this particular moment in time, Karlie and Taylor have taken their relationship underground (they went four months without being seen together in public - which, for two girls who allegedly have nothing to hide, is quite suspect) but more recently they have slowly been showing their love for each other in public again. They practically outed themselves and have been dealing with damage control ever since, however *if they had nothing to hide... then why hide?*

It's speculated the girls are still together present day however due to almost being outed they have been more secretive. Its rumored they are engaged/married now, there is so much information that has led me to that belief however that will be explained in its own Kaylor Timeline PowerPoint that I will make in the future.

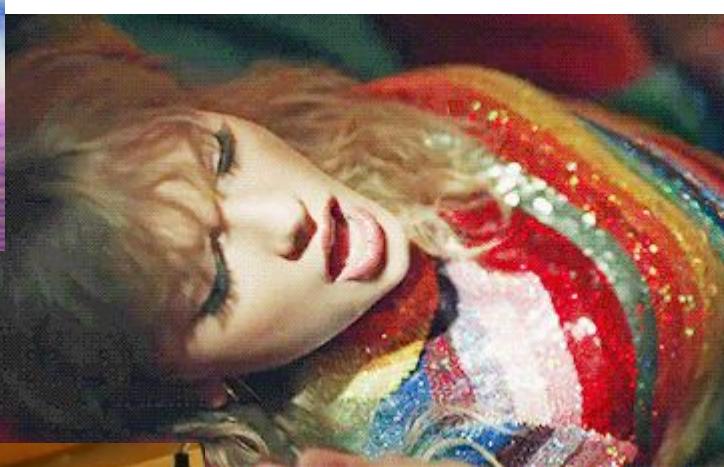

As for this one, they **finally did live happily ever after**.

Gaylor Swift: Is It Obvious Yet?

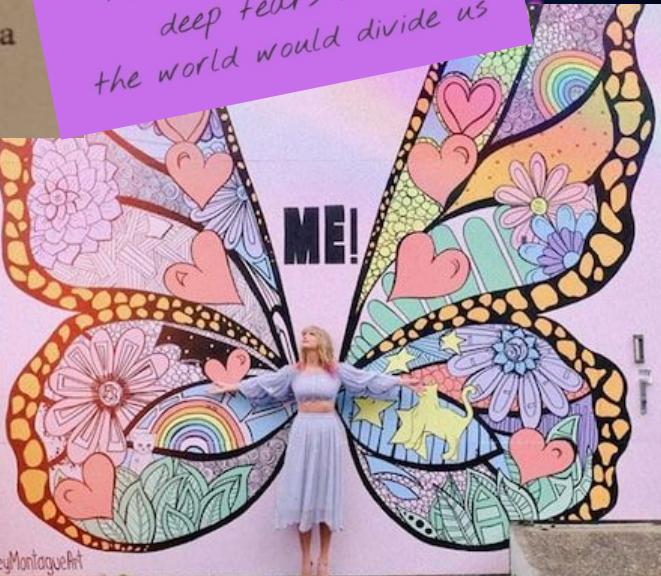

When this album comes out, gossip blogs will scour the lyrics for the men they can attribute to each song, as if the inspiration for music is as simple and basic as a paternity test. There will be slideshows of photos backing up each incorrect theory, because it's 2017 and if you didn't see a picture of it, it couldn't have happened right?
